1. Did you know that each year more and more people are starting a home-based business?
2. Most of these businesses started with little or no investment.
3. All of these people started their businesses in their spare-time, to supplement their Income, and found that they were making more money with their spare-time business, than they were making, with their primary job.
4. They were their Own Boss, working as little or as much as they wanted, depending on their goals.
5. Most of these spare-time businesses became so profitable, that they gave up their full-time 9-to-5 job, and turned their part-time businesses into full-time profitable businesses.

### An example of your merchandise and profit margin:

#### Dragon Candleholder

Retail: \$29.95

Your Cost: \$13.95!

Your Profit: \$16 each!

That's almost 115% pure PROFIT!

Listed below are just a few easy ways to get started in your own business. Which of these can you see yourself using?

### Money from Catalog Orders

One of the easiest, fastest ways to get orders — you just hand out catalogs! Show them to friends, family, neighbors, and the folks you work with, and get ready to take orders!

Take it a step further, and distribute catalogs after church (We have a great line of inspirational items); leave some at your barbershop or hair salon; let your kids show some to their friends' parents... There are many to make money just by showing your catalogs!

### Money at Home Parties

Invite your friends, and their friends... show your merchandise, special kits and catalogs, and get ready to make money! Set up representatives who will handle all the parties for you. They will find the hosts, and when they get orders at the parties, they will fill those orders through you! They make a profit, and you make a profit.

**Note:** Our Party Plan Program is **NOT** multi-level. It works strictly on a profit basis; so the money you make is yours to keep!

### Money at Flea Markets/Swap Meets

This may be one of the most enjoyable ways to make extra money you'll ever find. Working just a couple days a week, you could make as much as you make all week at your regular job!

Swap meets, flea markets, bazaars, craft fairs, county fairs — all attract huge crowds hungry for bargains and ready to buy!

Members report making anywhere from three hundred dollars a day to nine hundred dollars and more over a single weekend. Linda and Chuck Nolan of Southern California set up at a county fair and made \$2000 in two days! Carl Bennett made over \$1000 at a weekend boat show!

Fun for the entire family, easy to do part-time, and the perfect way to launch your own business!

### Money from Fund-Raising

Churches, lodges, fraternal organizations, youth groups, sports leagues... they ALL need to raise money, and you can help them do it!

Big volume orders, plus the satisfaction of helping deserving causes raises badly needed funds. What a great way to make money while contributing to your community!

### Make your dreams a reality

Now you can make your dreams a reality. Progress is based on dreams. We all have dreams, hopes, and aspirations for a better life. However, dreams can turn into reality. Unless we make a decision to act, all we will ever have in the future is dreams.

You have the facts about one of the most profitable and desirable undertakings available. You have learned about a great opportunity. Now is the time for decisive action. If you have confidence in yourself, if you have the self-discipline to follow our easy systematic instructions, if you realize that accomplishment comes only because of effort, then we want you as a Distributor in our organization.

We feel our Associate Distributor Program can help anyone interested in starting a Home Business.
